Style Options

From overlays using concealed soft-close hinges to upscale insets (plain or beaded) with two hinging options, there are many styles to choose from. A concealed hinge with integrated soft close can be used for a modern inset look, or use a minaret or ball tip hinge in a variety of finishes to complete a period look. Also available is a partial inset where half of the door's thickness is inside the face frame. This partial inset has a sleek look and is certainly not run-of-the-mill.

Doors and Drawer Fronts

We have over 40 named doors with standard and matching drawer fronts. We also have many non-published designs. Bring your ideas to your designer and create a look that is completely your own.

Wood Species

For our solid wood cabinetry, we work in the standards of Red Oak, Maple, and Cherry and also have offerings that are more uncommon such as Red Birch, Mahogany, Hickory, Walnut, Bamboo, White Oak, and White Birch. Other wood species are available upon request and subject to availability. In frameless, we offer a line of veneers that include domestic species such as Quartered Cherry as well as exotic species such as Wenge. These veneers are available with grain matching.

Framed and Frameless

We offer traditional framed cabinetry as well as full access Frameless cabinetry. Frameless is a great solution in small spaces where maximizing storage is of high importance.

Storage Options

Interior accessories provide the finishing functional touch for your new cabinetry. From drawer dividers to rollouts to lifting shelves for mixers and other appliances, there are many accessories to maximize the efficiency and enjoyment of your cabinetry.
